- Contains essential vitamins including eight B vitamins, various minerals like calcium and other important nutrients
- Isotonix formulas are more effective than standard supplements for maximum and faster delivery of ingredients
- Suitable for vegetarians
- Product is gluten free and tested to have no detectable GMOs

WHY CHOOSE ISOTONIX DAILY ESSENTIALS PACKETS?

There's nothing more important than taking care of yourself on a daily basis. With Isotonix Daily Essentials Packets, you can be sure that you're giving your body the essential vitamins, minerals and nutrients it needs, thanks to four essential supplements — Isotonix OPC-3, Isotonix Multivitamin, Isotonix Advanced B-Complex and Isotonix Calcium Plus — in one convenient serving, helping to promote long-term health and optimal nutrition.

Caring for your general health starts with **Isotonix OPC-3**, a powerful antioxidant that provides a variety of health benefits associated with general health and well-being. Isotonix OPC-3 helps the body function at its peak by combating free radicals throughout your body.

Next, **Isotonix Multivitamin** contains 100% or more of most of the recommended daily allowance of essential vitamins and minerals, to complement your diet. With today's fast-paced lifestyles, it is important to ensure that you are getting the fuel it needs. Isotonix

Multivitamin supplements dietary deficiencies and helps maintain normal metabolic functioning.

To provide the energy you need to function throughout the day, each packet includes **Isotonix Advanced B-Complex**, a combination of the essential B vitamins with magnesium and potassium, which work synergistically to promote a myriad of health benefits and biological processes in the body. Isotonix Advanced B-Complex works to promote healthy red blood cell formation, and contains B vitamins necessary for proper functioning of the nervous system, bone marrow and muscle.

Finally, **Isotonix Calcium Plus** provides the body with an optimal blend of calcium, vitamin D3, magnesium and vitamin C. While calcium supplements in tablet form can be difficult for the body to absorb, the unique Isotonix delivery system and the inclusion of beneficial vitamins and minerals such as vitamin D make Isotonix Calcium Plus more readily available and easily absorbed by the body.
